TRUDY PRIMARY

A classroom is a place where a child develops, grows and learns how to express thoughts and feelings. It is a place where a teacher encourages shared learning and where a child builds their confidence.

With hundreds of products in the range, including display boxes, shelving, art easels, storage solutions, trudy primary furniture provides a flexible, interactive environment that encourages and inspires learning.

WARRANTY

We build quality and durability into all of our products. Proof of our commitment to the highest standards can be seen in our 5 year warranty on all of the trudy primary furniture range*

SERVICE

All trudy primary furniture is fully inspected before leaving our factory and most items are delivered fully assembled. The restrictions of this are due to size and access into buildings.

ORDERING

Product dimensions are listed as follows:
width x depth x height unless otherwise stated.

All orders are subject to our standard terms and conditions, a copy of which is available on request and on our website. All prices are shown excluding VAT and carriage.

DELIVERY

Please refer to page 105 for carriage costs & pre-delivery requirements.
Delivery is four weeks from receipt of order.

0208 545 2678

Open Mon-Fri 9:00am to 5:30pm. Calls are charged at a local call rate.

Trudy primary furniture is made in the UK from sustainable sources.

We've created a simple set of icons to help you choose furniture that suits your requirements. Icons that appear next to products are explained below.
Welcome to truly primary furniture.

5 YEAR WARRANTY

All truly primary furniture comes with a 5 Year Warranty (unless otherwise stated) giving you peace of mind it is covered in the event of structural failure. Subject to general wear and tear.

FIXING REQUIRED

Most of our units will be delivered fully assembled. When this isn't possible, the units that require a higher level of installation or fixing will feature the icon shown above.

ENVIRONMENTALLY FRIENDLY

All of our timber is responsibly sourced from FSC accredited suppliers. We heat our factory using waste wood and sawdust. We recycle 95% of general waste.

STEP BY STEP PLANNING

Whether you're planning a new school or refurbishing a single room, our team are here to help. We can help with choosing your furniture and offer you our design and planning service to help you make the most of your space.

ORDER AND SAVE

Where you see this icon, you can save money by ordering a set or multiple items of the same product. A great way to save some money.

COLOUR OPTIONS

So you can have the furniture just the way you want it, we have lots of different options. Remember to add your colour choice letters at the end of the code when ordering.

INTRODUCING TRUDY PRIMARY

Trudy primary is a range of practical furniture designed with feedback from teachers on how they used furniture, and what they needed to help them in the classroom. They wanted something more modern, bright and flexible...So the trudy designers started sketching up ideas and the rest is history.

Apterior's design, and fit furniture solutions for schools, colleges, universities, and public and commercial offices. Over the years we have spoken to teachers about what they need and discovered there was a lack of storage options to suit the huge variety of equipment in a classroom.

Unlike secondary schools, where pupils move from room to room for different subjects, primary school children stay in the same room for most of the day.

The teachers stressed their need to be able to rearrange the room to suit the subject, whether it was working individually, in groups, or clearing everything away to make space for drama.

So, back in the office, the designers set to work putting together their ideas for the new furniture range and thinking about all the things they'd learned back at school.

The designers chose to use maple. It's a much lighter colour and gives a much fresher look to the classroom. It also complements the bright modern colours they chose for trays, chairs, handles and trimming the storage units.

Trudy was launched at the Education Show in Birmingham in 2008 and over the years the range was developed to add more choice and the colour options expanded.

For more information visit:

Double play table (see Pg 53)

HOW TRUDY PRIMARY WORKS

The trudy primary furniture range has a solution for every classroom need. The examples shown here give an idea of what can be achieved in each age group environment. From quiet corners, study areas and ICT suites to play and reading corners, there's a solution for every classroom.

SPACE

We know space can be tight in classrooms, that's why the trudy primary range cleverly makes use of every available surface as a storage space.

COLOUR

Choose from exciting modern colours to inspire young minds or a neutral grey suitable for SEN, or to allow pupil displays to stand out.

INSPIRATION

Creating teaching environments that inspire children to learn.

FLEXIBILITY

The key to a modern primary school. Storage units are designed to be easily moved around the classroom, by teachers or pupils, then locked into position wherever needed.

QUALITY

Every trudy primary product is made with high quality materials and fittings.

SHAPE

With soft curved lines and our unique, half-moon handle, trudy primary furniture has no dangerous sharp corners, and our curved seating and tables link neatly together.

INTERACTION

Children learn by interacting with the furniture, and their environment, knowing where things are stored, preparing the room and tidying away after use.

Detail A - Grouping A-Frame tables

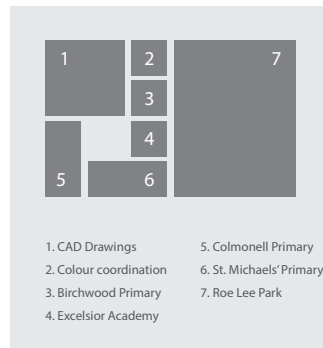

Detail B - Rectangular tables

Detail C - Group workstation

Detail D - Storage and shelving

CREATE YOUR PERFECT ROOM

Whether you're planning a new school or refurbishing a single room, our experienced team are here to help. We can visit you to measure up the space and talk to you about your ideas. We'll help with choosing products and colour schemes using material samples and colour boards.

We then put together a CAD plan of the best layout to suit your needs and your budget. We can even create a 3D visual so you can picture how it's all going to look.

STORAGE

A complete storage solution for even the busiest classroom. With a choice including open shelving, cupboards and specialist book storage, all classroom supplies and everyday materials can be kept neatly tidied away. From pencils to PE kits, everything has a place and can be easily retrieved at the start or end of the day.

Roe Lee Park, Blackburn, Lancashire.

STORAGE

It's much easier to keep your classroom tidy when you have plenty of storage space. Trudy primary furniture is cleverly designed to suit different classroom resources, whether you want to store them out of sight or put them on display.

The units are compact too, so you can pack a lot in a small space and still be neat and tidy, perfect!

The coloured rails on the units provide strength and durability - and the safe, curved panels are all with a tough, impact-resistant edge. Rails, panels, trays and half-moon handles are supplied matching on each unit so you can colour co-ordinate your room.

Look out for the units with a handy top well, it stops things falling off when you move the units around.

Modern, half moon shaped handles

Units with castors are easy to move around and the castors lock too.

Safe, curved corners

Easy grip, half moon handles

Locking castors

Space saving storage solutions

Pull out units work perfectly with docking stations.

Use our tables to create interesting classroom layouts.

TABLES & SEATING

Having comfortable and colourful furniture in your classroom helps children concentrate and work to their full potential. With our durable and flexible furniture, you can be safe in the knowledge that it has come from a trusted source and is compliant with relevant industry regulations.

Colour co-ordinate, or mix
and match your chairs for
a stylish look and feel.

TABLES & SEATING

From classrooms to dining rooms, libraries and computing rooms, we've got tables and chairs to suit every area of your school, all in a fantastic range of colours. The trudy primary range has seating and tables in a choice of heights, shapes and sizes, all perfectly coordinated so you can choose the best furniture for each area of your school.

Easily configurable tables

Bean and Apple padded seating

Bean, Apple and Pea floor-mats

Please use the size guide below when ordering tables and chairs to help you select the correct height.

GRAFTON SEATING

The generous perforations of Grafton's distinctive injection-moulded backrest provide better ventilation and flexibility. This unique feature was created to offer the comfort of a mesh backed chair without compromising on durability. The rolled edges of the backrest are mirrored on the seat shell to create a waterfall edge. The chair's configuration options support agile learning and maintain a consistent design aesthetic across a campus.

DRESS-UP TROLLEY

1200w x 600d x 1200h

This mobile dress-up unit has space for 3 co-ordinating trays, 24 hooks, and has lockable castors too.

PRM51-** Maple

£508.00

CLOAKROOM

Whether you have a dedicated cloakroom or an allocated space in your corridor or classroom, you need somewhere to keep all those little coats, gym bags and wellies. It's often the first place everyone sees so you want it to be tidy and organised, and if everyone has their own hook, hopefully you won't fill up the lost property box so often!

The units are all at a height which children can reach, and they come in a choice of styles.

The classroom benches
have locking castors.

The mobile coat and shoe store is easy to move and lock into place.

CLOAKROOM

Welcome benches are great for narrow corridors or against the wall in your classroom. The mobile units have locking corner castors so they stay put when you get them where you want them. All units feature a safe, plastic-coated 'J' hook (so no dangerous top hook!), making these units safe for children of all ages.

MOBILE DOUBLE SIDED BENCH 32 HOOKS

1200w x 600d x 1200h

An attractive mobile solution with 32 coat & bag hooks. It has space for shoes to be neatly stored.

FITTED FURNITURE

We offer an unrivalled service in the design, production, delivery and installation of fitted furniture, especially for wet areas and specialist storage. Expert direction is given on which design and layout will best fulfil your requirements.

Our planning and design service includes site surveys and production of 2D and 3D layout plans where appropriate. For more information, call us or visit our website trudy@apteriors.com

Colour coded handles
give the wet areas a
well designed look.

Due to the popularity of our trudy furniture for Primary schools, we have now developed a range of fixed furniture, to give a co-ordinated look throughout your room.

In Primary schools, the main purpose of fixed benching is to provide wet areas for pupils and teachers. These are generally short runs of worktop with a sink and cupboards or tray storage units below. With this in mind we have created a range of pre-configured units available in 3 heights; 590mm for infant, 700mm for junior and 850mm for adults. All benches have an integral stainless steel sink and drainer, easy to operate lever action taps with a cupboard below. Longer benches include additional cupboard and or tray storage.

Wall units are also available in lengths to match the floor units, to provide additional cupboard storage.

The advantage of these pre-configured runs of benching is that they have no worktop joints, so are quicker and easier to install and therefore very cost effective.

The new fixed range features many of the design elements that define Trudy furniture:

- Curved end panels
- Easy-grip semicircular-handles
- Trudy colour options for panel & handles
- Maple finish

FITTED FURNITURE

All benches can accommodate an integral stainless steel sink and drainer, easy to operate lever action taps with a cupboard below. Longer benches include additional cupboard and tray storage.

Height dimensions refer to finished worktop height, not end panel height.

COLOUR OPTIONS

When our customers asked us to design coloured furniture, we produced a range of bright options with learning in mind. Purple, lime, blue and yellow all encourage calmness and comfort, without the overstimulation of traditional primary colours (such as red). They can be used individually or complement each other when creating a co-ordinated colour scheme for your classroom.

CLASSROOM CHAIRS - Postura+

Swivel chair

STANDARD UNITS - All maple with coloured rails, poles, handles and trays

TABLES WITH COLOURED WORKTOP - T50, folding and tilt table (grey frame only)

TABLES WITH COLOURED FRAMES - A-frame

VINYL - contour range, floor pads

DEVELOPING TRUDY PRIMARY

Our customers told us that they needed clever ways to store classroom essentials in limited space, and that they were bored of beech and primary colours. Teachers wanted to be able to rearrange a room to suit the subject, whether it was working individually, in groups or clearing everything away to make space for drama and activities.

We watched, listened, learned and created trudy primary. A complete, flexible, bright furniture solution for primary schools.

Using our state of the art CAD system, we design and develop each product virtually before we start working with wood.

ATTENTION TO DETAIL

Each piece of furniture in the trudy primary range has been developed with quality, safety and practicality at its core. High quality finishes, rounded corners and durable materials mean that even when in a busy classroom environment, this furniture will still look good for years to come.

It's the attention to detail which sets us apart. From the methodical research process to the more than rigorous testing by our future users, nothing is left to chance. We are determined to bring you furniture which pushes the boundaries, not only of design but also of durability and value, to provide a complete solution to schools of all sizes.

We've paid attention to the little things, which can make a big difference, especially to safety and children's well-being. All our furniture has rounded corners and edges to reduce the risk of impact injuries, and all units with doors feature our half-moon shaped, easy grip handle design so even children with the smallest hands can use them.

Many of our units have adjustable shelves, giving you flexibility, and a number feature our handy top well for additional tray storage and to prevent things falling off when you move the units around. For additional flexibility, many of our products are fitted with castors, which enable you to move and rearrange your classroom as easily and quickly as possible.

Some of our units are double sided, with a choice of end panel finishes including mirrors, whiteboard and chalkboard. Curved aluminium rails on our units add colour, strength and durability, while the shelves on our bookcases have specially created rails to prevent bowing.

The entire trudy primary range is available in our contemporary range of exciting colours, allowing you to create a fully coordinated furniture scheme to inspire young minds. By looking after the small things we know the big ones take care of themselves. But, just in case they don't, we've provided a five year warranty for your added peace of mind.

Once we have completed the conceptual design work, realistic renders are created, allowing us to visualise the product in detail.

We are passionate about truly primary products and we have spent years developing them so they are safe, environmentally friendly and most importantly practical for children to use. We know that they will help develop a child's imagination through creative play.

Quality products...

Every detail of our range has been carefully considered and designed to minimise risk, ensuring our range is fun and safe for children to use. We have designed out trap points, featured radiused edges and included clever details, such as our locking castors, to ensure the product is as safe as possible. Our range, produced from ethically sourced materials, conforms to all relevant British and European standards, including BS EN 16121 and BS EN 1729.

Trudy and the environment

We only use timber supplied by companies accredited by the Programme for the Forest Stewardship Council (FSC). All of our timber-based materials come from sustainable sources. At its end of life, all our furniture can be recycled, incinerated, or composted.

The manufacturing processes have been refined to lessen any impact on the environment including the installation of infra-red curing ovens and optimising programmes to achieve the highest yield from our sheet materials. We also have our own wood burning incinerator which uses timber off-cuts and extracted dust to heat the factory. Any excess is then processed into fertiliser for use on local farms.

Our commitment to the environment extends to recycling 95% of our factories waste materials, we also keep any packaging for our finished products to an absolute minimum. Your truly primary furniture will be delivered wrapped in blankets rather than cardboard boxes.

You can be assured all truly primary products are not only manufactured to the highest quality standards, but also at minimum cost to the environment.

OUR SERVICE

We love our range of classroom furniture and we want you and the children who use it to love it too.

Please refer to the following information if you need to speak to us, order more products or just check on our returns policy.

Enjoy your truly primary furniture!

OUR SERVICE TO YOU

At Apteriors, we've been helping a huge range of educational establishments create the best learning environments for those who use them. We feel that our experience gives our customers trust and peace of mind. Let's see how we can help you.

Ordering and enquiries

All orders are subject to our standard terms and conditions, a copy of which is available upon request. Prices are shown exclusive of VAT which will be applied at the current UK rate. Payment terms are by credit card or 14 days net from invoice date.

Our support team is available from 9.00am-5.30pm Mon-Fri.

Call: 0208 545 2678
Email: trudy@apteriors.com
Web: www.apteriors.com

When you place an order a confirmation will be sent out to you. It is your responsibility to check all the details of the order confirmation and inform us of any errors or omissions within 2 working days.

Delivery information

All products are supplied exclusively to schools and other educational establishments. We are unable to deliver to residential addresses. An installation service is available, please contact us on 0208 545 2678 for details.

Delivery is four weeks from receipt of order.

Returns policy

As all our products are manufactured to order, they are non-returnable unless found to be faulty. Damaged product must be reported within 5 working days. All goods must be signed for and checked as any damage found will not be rectified afterwards. Please check your items carefully upon delivery for faults or damages and keep any packaging.

Can I cancel my order?

Yes, but you can only cancel your order before production has started. If you cancel after production has started you will be charged in full. Please call us to check the progress of your order.

Terms and conditions

Whilst every effort is taken to ensure all descriptions are accurate in this catalogue, changes to products may occur. We therefore reserve the right to make necessary substitutions whilst ensuring the standards of quality and performance are maintained. Colours in this catalogue should be used for guidance only as variations may occur during printing. Swatches are available on request.

Expert planning and advice

Whether you're planning a refit for a complete building, or simply a single room, our advice and expertise is there for you.

Our experienced sales and technical staff will work with you to design the environment which best suits your needs and budget. This service includes a site survey, CAD layout, material and colour board samples.

Supplied fully assembled

The majority of our products are supplied and delivered fully assembled, the exceptions to this are due to restrictions of size and access to buildings. Products marked with the self assembly logo will be supplied for simple self-assembly. Assembly does not require any specialist tools. If you require our installation service, please contact us on 0208 545 2679 for further details.

Satisfaction guarantee

The modern teaching environment places heavy demands on furniture and fittings, so we build quality and durability into everything we produce.

Proof of our commitment to the highest standards is our 5 year warranty on all items unless otherwise specified within the product description. This guarantee is against defective materials and workmanship for 5 years after purchase. All our warranties are subject to fair wear and tear.
