

APTERIOS

FF&E SPECIALISTS

MAKING YOUR SPACE WORK FOR YOU

SURVEYING & CONSULTATION

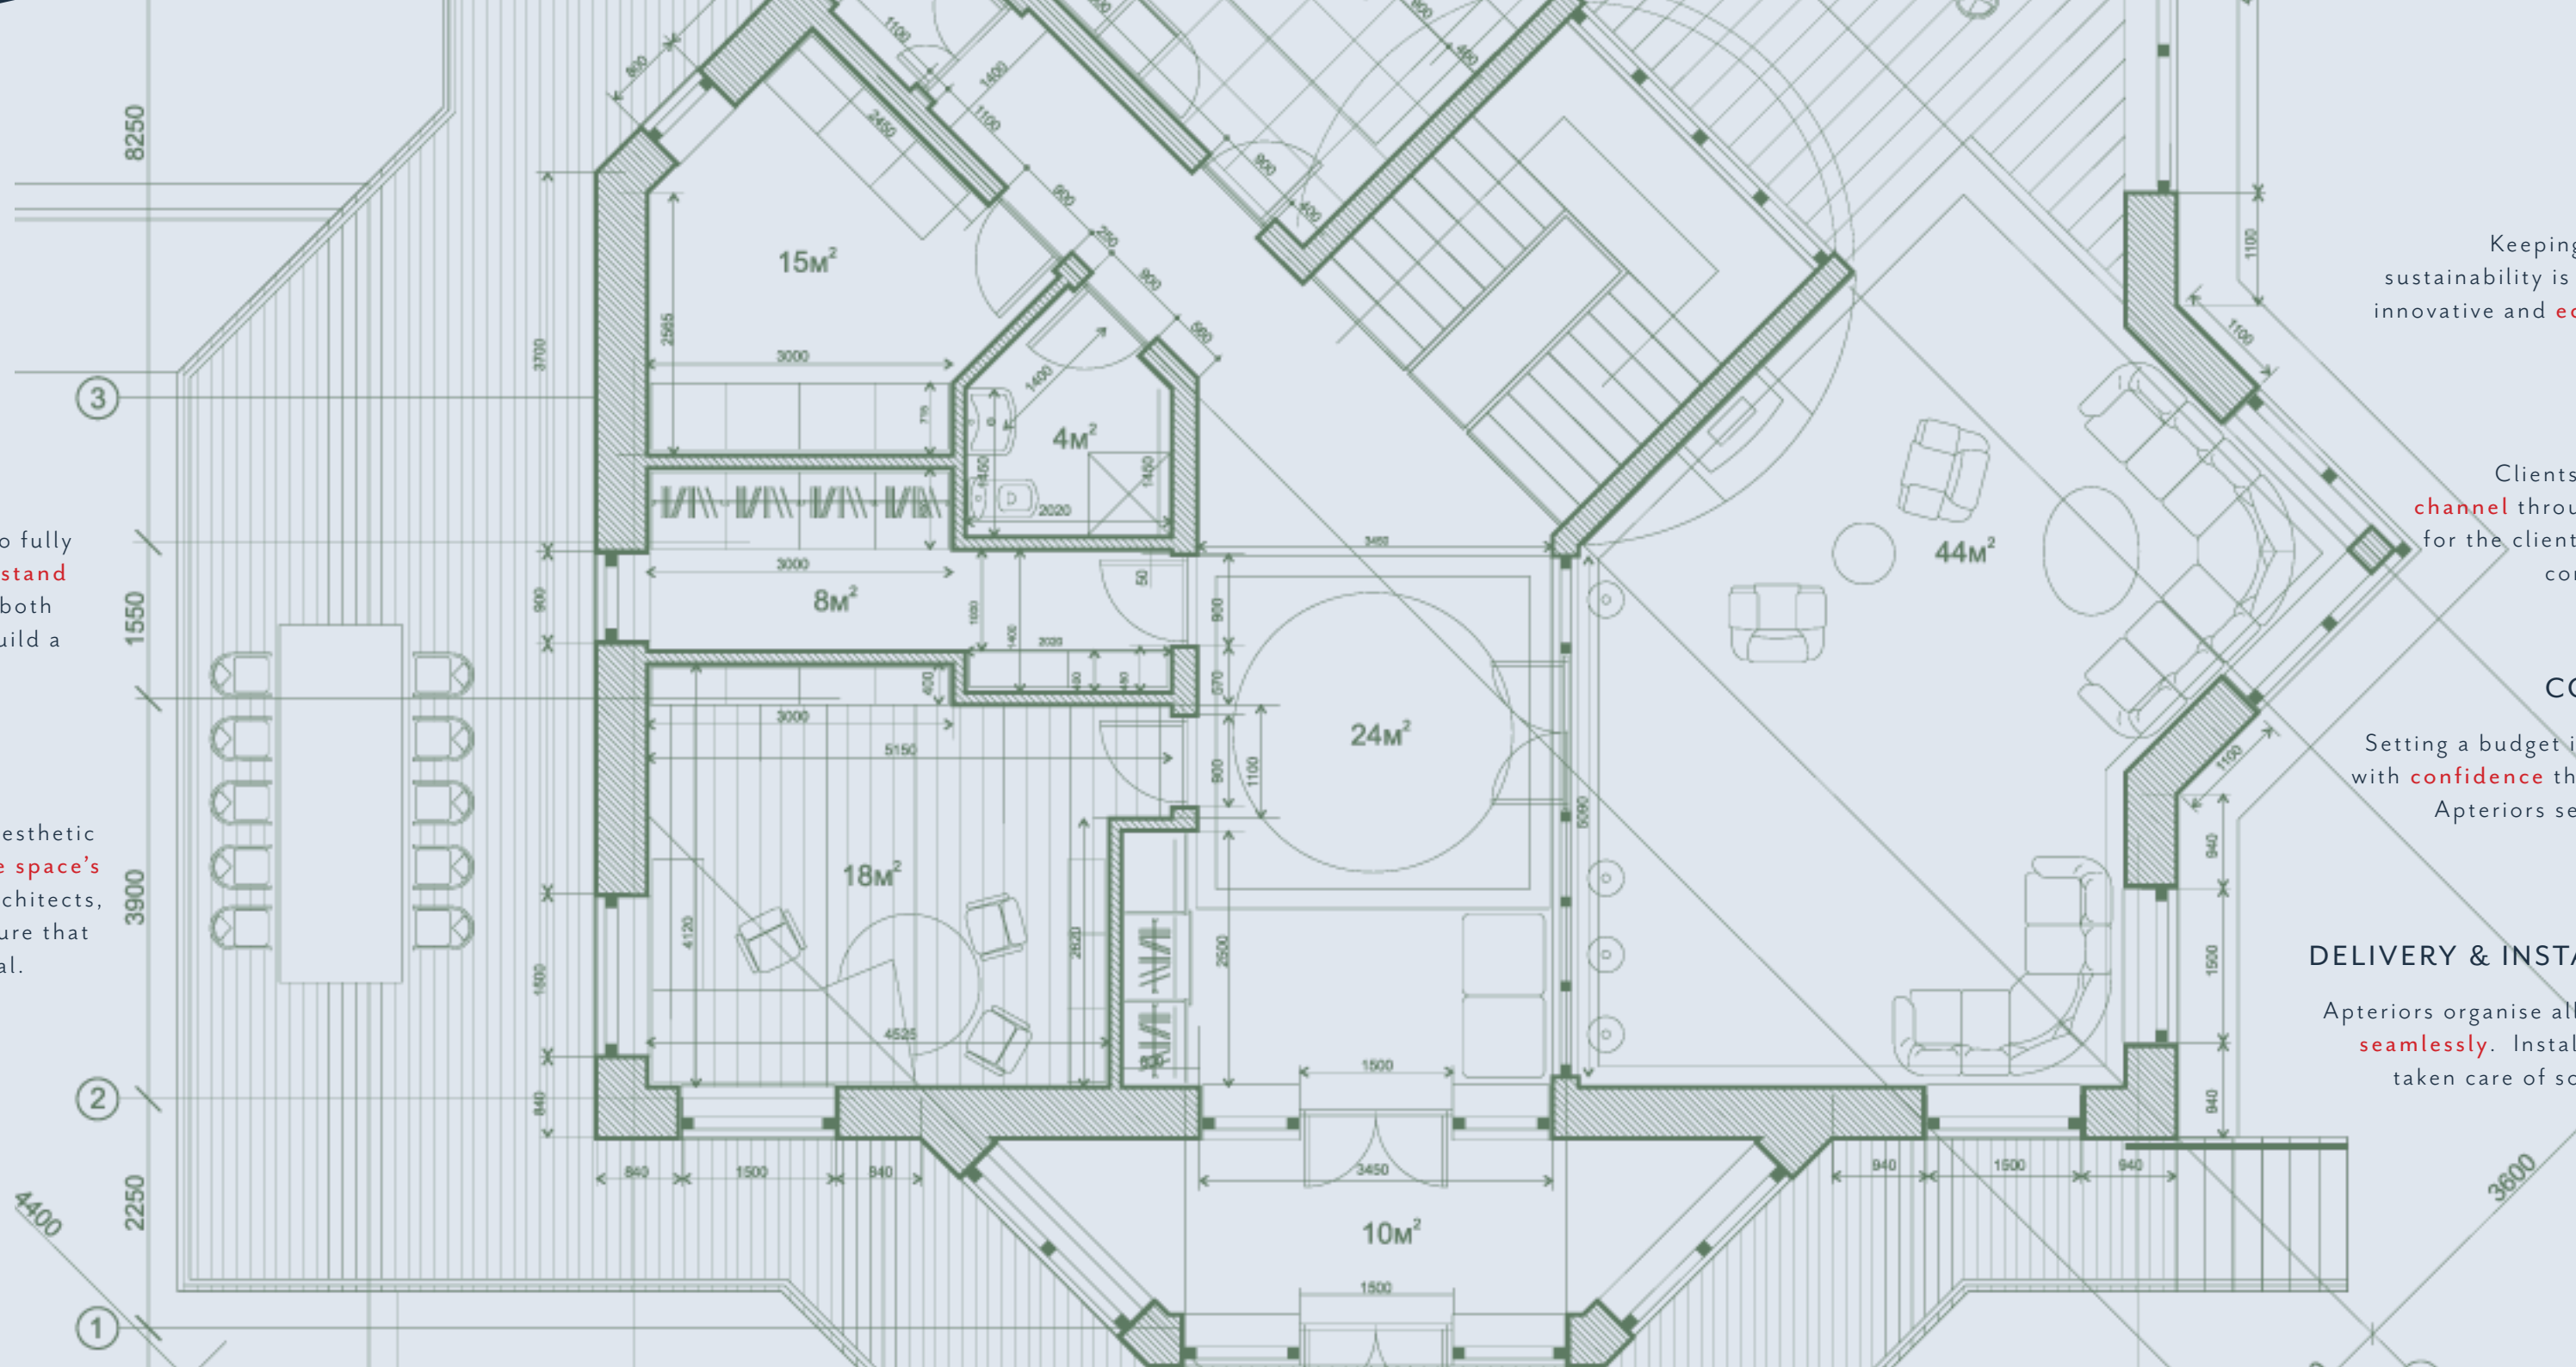

Apertorios provide face-to-face consultancy to fully involve themselves with the client and **understand their ethos and ways of working**. This gives both parties the best chance to collaborate and build a good working relationship.

SPACE PLANNING

A crucial part of the process, ensuring that aesthetic and functionality marry together to reach **the space's full potential**. Apertiors collaborate with architects, mechanical and electrical contractors to ensure that there are no clashes and the space is practical.

3D VISUALISATION

Using BIM (Building Information Modelling) to see what the **end result will look like** before any furniture is ever purchased.

PRODUCT SOURCING

Keeping in touch with latest trends and sustainability is at the forefront of producing an innovative and **economically distinctive project.**

PROCUREMENT

Clients can place orders via **one direct channel** through Aterioris, avoiding the need for the client to liaise with multiple different companies, which can be stressful.

COST & BUDGET ANALYSIS

Setting a budget is crucial and provides the client with **confidence** that their costs are under control. Apteriors send comprehensive detailed cost schedules, no surprise costs!

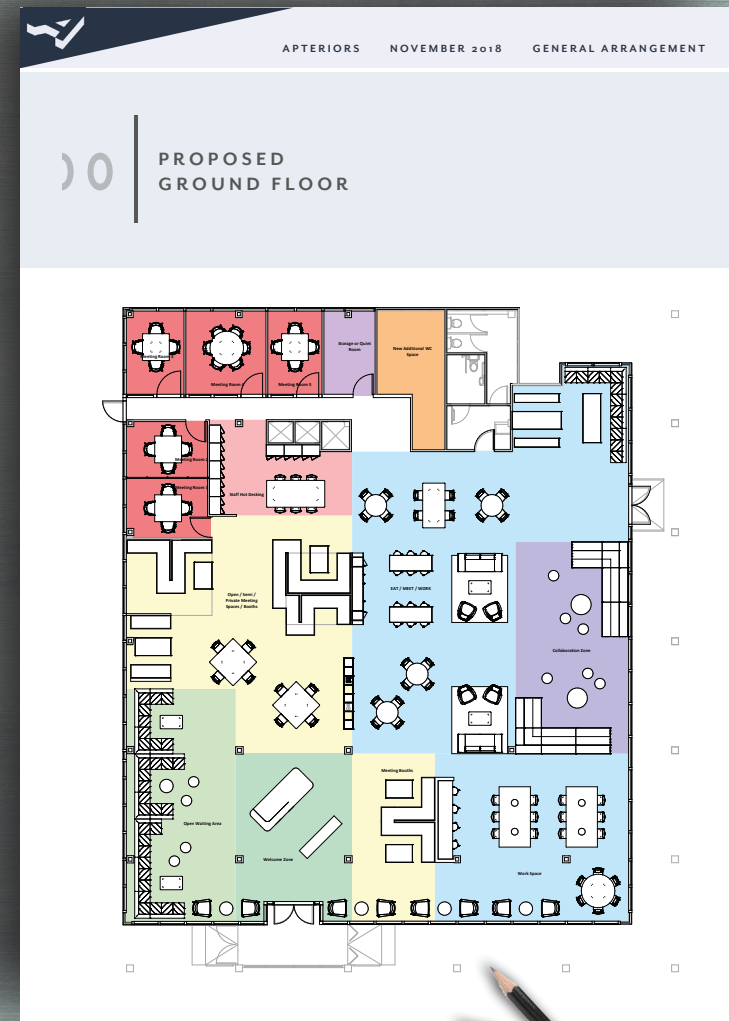

DELIVERY & INSTALLATION MANAGEMENT

Aprioris organise all deliveries allowing them to **run seamlessly**. Installation and waste management is taken care of so the client can move straight in.

DESIGN PROCESS

Apteriors present their proposals in a format that is detailed where it needs to be, but is still clear and understandable.

Drawings, mood-boards, product books and room by room cost schedules are provided at relevant points of the process, guaranteeing that each area is carefully considered for both design and cost.

Apterior's have numerous years' experience in the education sector. From early years classrooms, teachers' workspaces, sixth form breakout areas and SEND spaces to specialist teaching blocks (and more), the team has the know-how to make the most of the space available, making it fit-for-purpose now and in the future.

EDUCATIONAL

Today's residential spaces need to not only be visually appealing and comfortable, but also multi-purpose and highly versatile. Apters are highly skilled at marrying these requirements together with a specific design brief, making the space work for its inhabitants, whether they are working from home or lounging on that statement sofa.

RESIDENTIAL

There has been a multitude of research into the effect of the design of our workplaces on staff productivity, efficiency and general mood in the workplace over the years. Apteriors put this theory into practice in each space that we work on, ensuring your staff are able to concentrate on one thing only: the success of your business.

COMMERCIAL

Bars, restaurants and hotels - while different spaces, they have two crucial similarities: the need to make their patrons feel welcome and to make your brand unforgettable. Apertorios can make both of these a reality, while also ensuring the spaces allow you to be flexible with their uses. Need to set up for a gig this evening? No problem!

HOSPITALITY

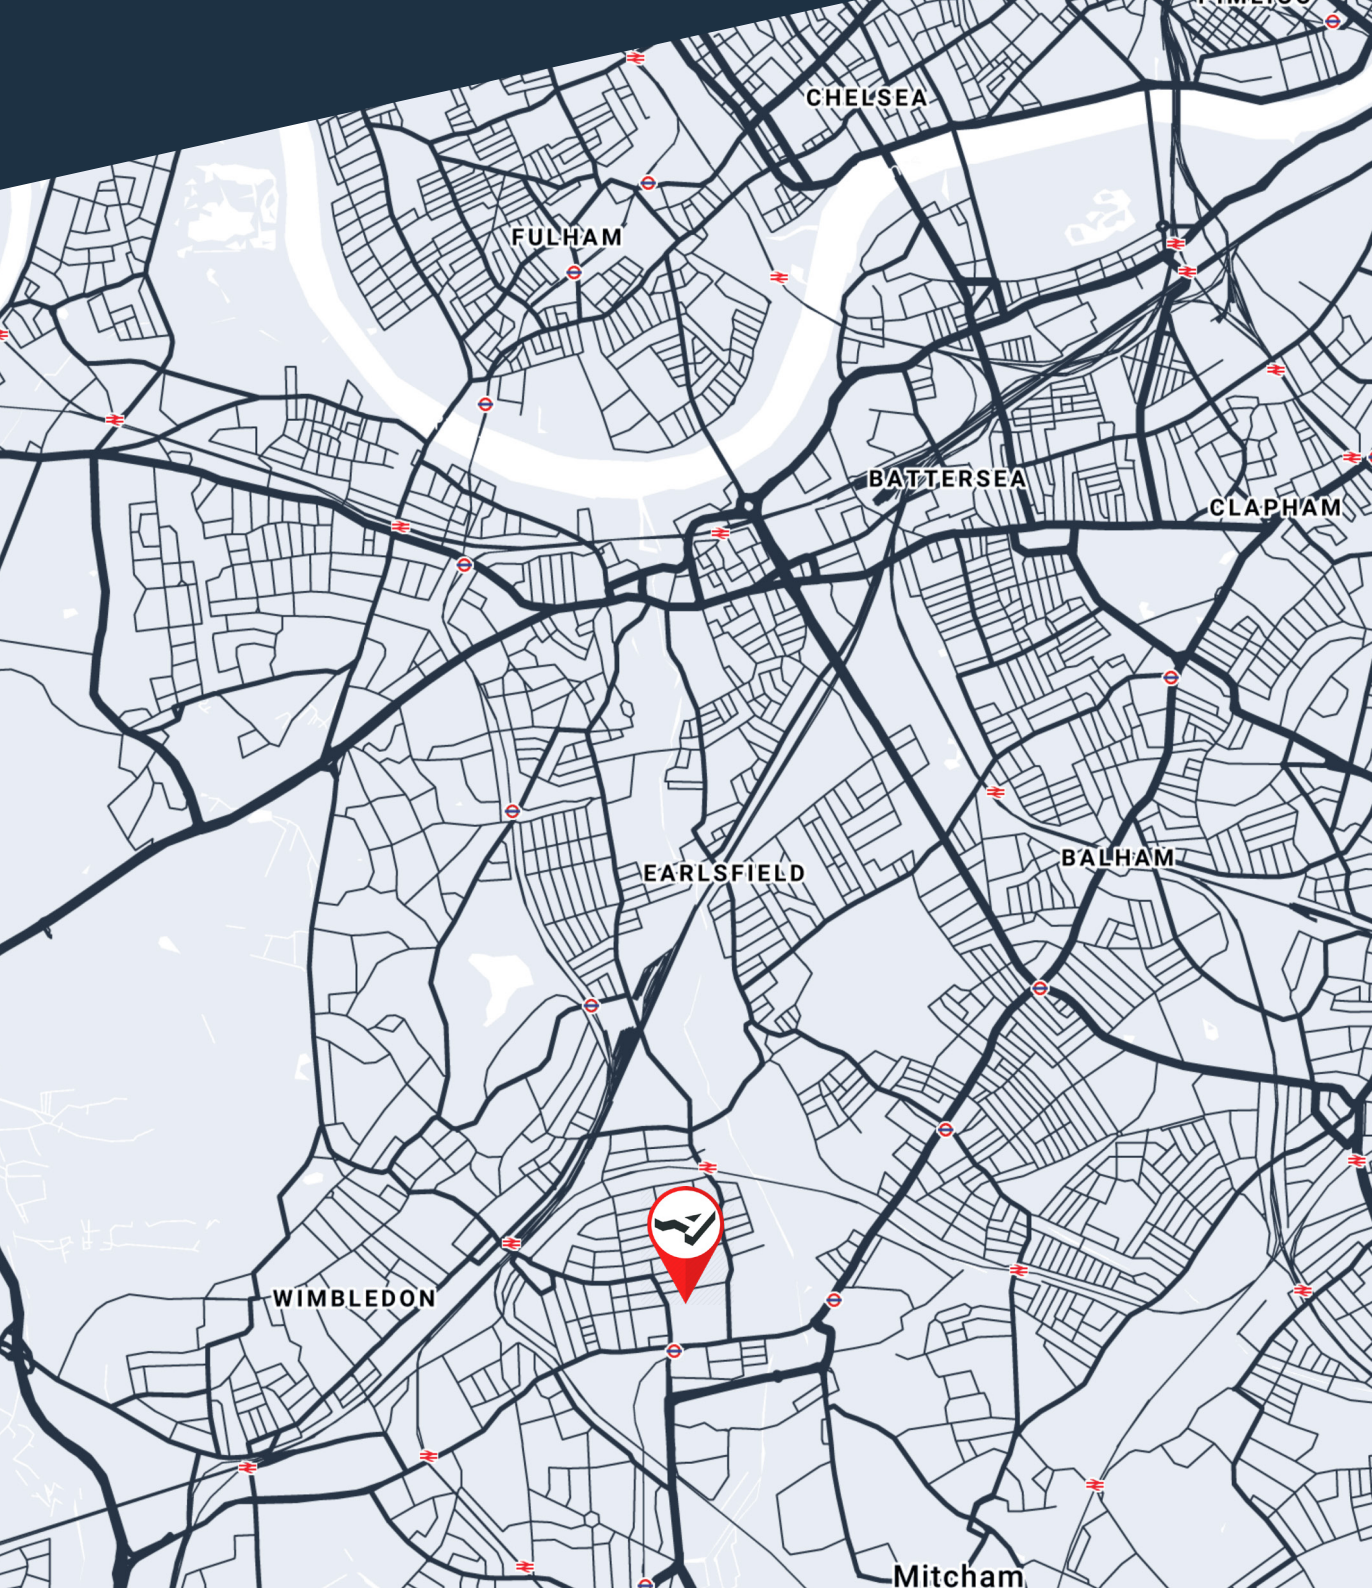

Spaces dedicated to healthcare, along with other specialist spaces, need to put their primary function above and beyond any other consideration. Often, they also need to be up and running very quickly. Apteriors' expertise in this area means that no project falls short of these expectations, while also ensuring HTM compliance.
